

ENERCO

Emergency trolley

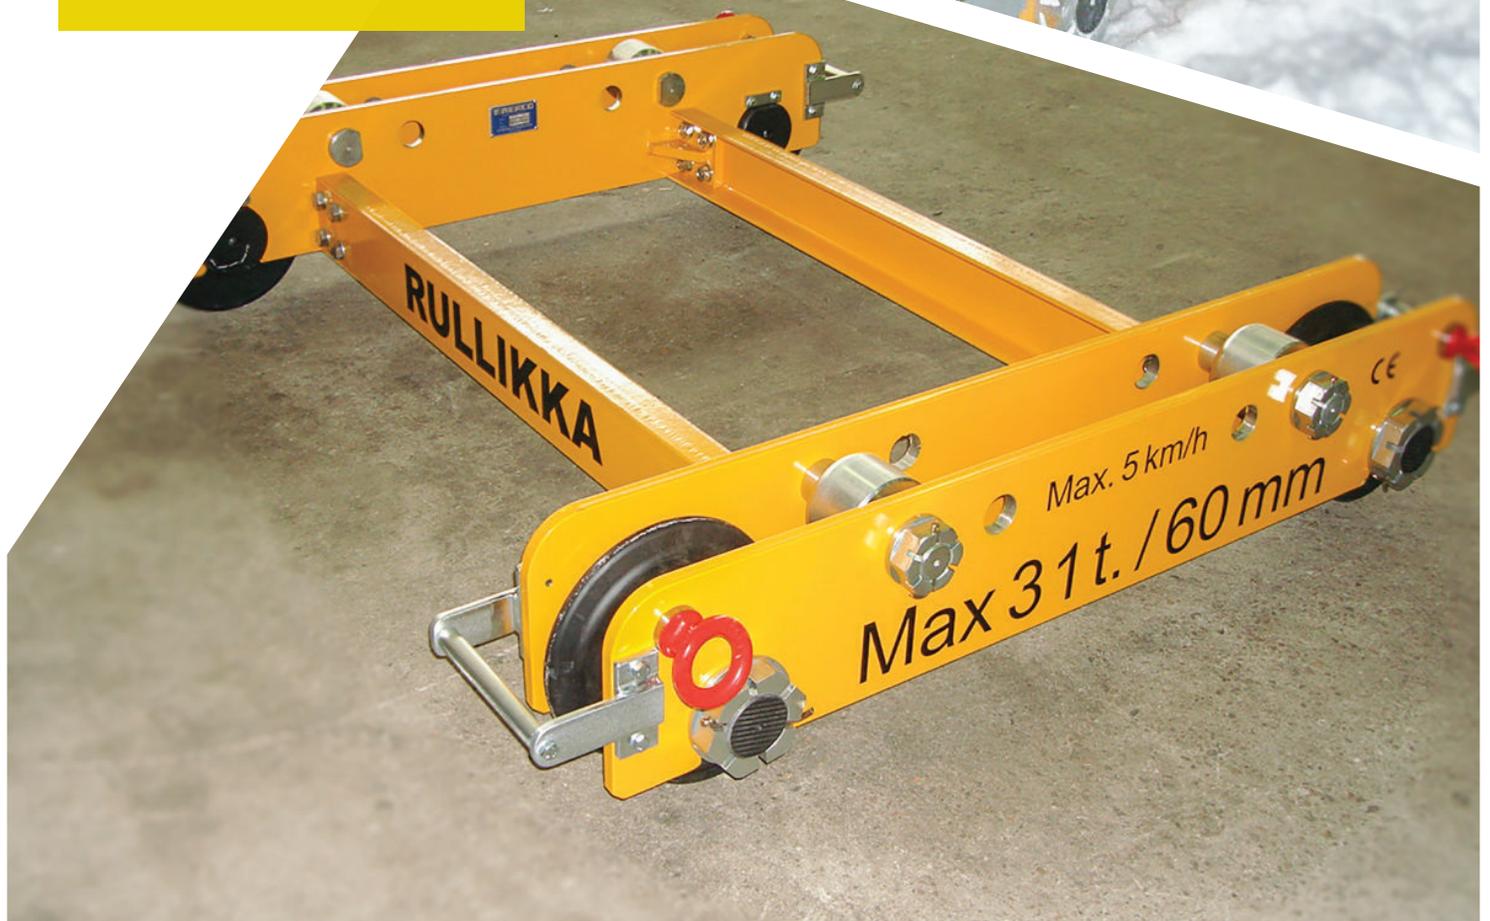

The trolley is used for moving damaged locomotives and wagons away from the trafficked lines to the workshop or any other repair site. In order to make the handling easier the trolley can be disassembled in parts.

The trolley is equipped with support rollers, which can be set in two different positions according to the wheel diameter.

In this model, the wheel diameter can vary from \varnothing 890 to \varnothing 1250 mm.

TECHNICAL DATA:

- Length 1465 mm
- Width 1776 mm
- Total height 320 mm from the rail head
- Weight 480 kg
- Max load 31 t
- Max speed 5 km/h

Konepaja Mankinen Oy offers an extensive range of technical attachments for excavators, including snowbrushes, ballast tampers, sleeper changing units and other rail track maintenance equipment. We can provide with technical solutions like installing excavator railway wheel sets and rail worthiness inspections. All the products have CE certification and manufactured according to European standards.
